**Blockadekonzert Lebenslaute, 29.08.2016**

**Ladies and gentlemen** behind this fence,

we want to tell you why we are here. We are called „Lebenslaute“, something like „Sounds of Life“. We combine classical and international music with our nonviolent protest against threats to human life.

The German basic constitution, our „Grundgesetz“, forbids war to be launched from German territory. Africom does not respect this law.

You are part of the drone war against people in African countries. Drones, however, don´t kill only so called combattants, but also many innocent persons including children.

**Drone warfare itself is a form of terror.**

We appeal to you as fellow humans and not just as soldiers: Please reject your participation in this war.
